## Table des matières

<b>Add a new license on your user account</b> .....	2
1. <b>IMPORTANT</b> .....	2
2. <b>Activate your license on the webserver</b> .....	2

## Add a new license on your user account

### 1. IMPORTANT

The [SOFTWARE] – 1 user license will authorize only one user.

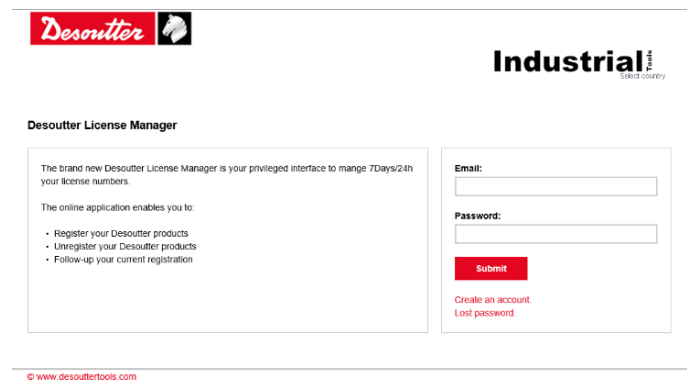

In case you buy a package of [SOFTWARE] – 25 users license, you will activate the license once only on the server but you have to install and register the software for 25 users accounts.

### 2. Activate your license on the webserver

Go to "http://licences.desouttertools.com".

Open your user account on the license server

Enter your mail and your password.

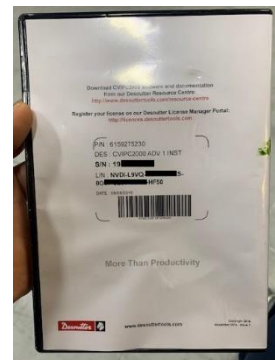

Open your "License Management" screen,

### License Management

Enter the serial number and the license number.

You will find them on the label of the packaging box or on the license certificate.

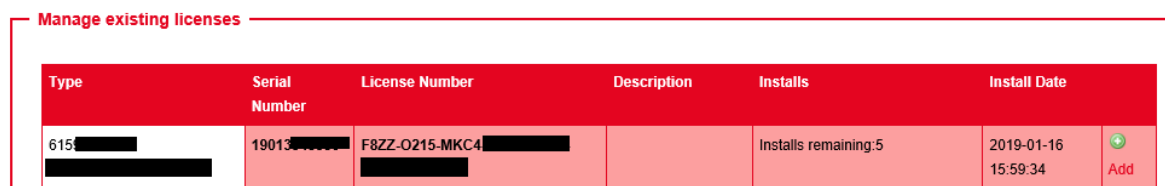

Submit

### License management

The new license is immediately displayed at the bottom of the list of your existing licenses.

Type	Serial Number	License Number	Description	Installs	Install Date
615	19013356780	F8ZZ-O215-MKC4		Installs remaining:5	2019-01-16 15:59:34

Now you can install and register your software on a computer.
